First Annual Watershed Wide Crow River Clean Up September 18, 2004

The Crow River Organization of Water (C.R.O.W.) is organizing a watershed wide clean up day for the Crow River. This is an opportunity for citizens of the entire watershed to take pride in their Communities and the River that joins them together.

The Communities of Rockford, Delano, Hanover and Hutchinson have already begun organizing groups to take part in this event. We are hoping that citizen groups from other communities will follow their lead and join the clean up effort. This event is perfect for youth groups, churches, Lion's Clubs, schools, community groups, or individual citizens that want to get involved. It's easy, fun and does a great deal to enhance our local natural resources.

If you would like more information on the River Clean up, or would like assistance in coordinating one in your community, please contact Diane Sander at 763-682-1933 ext 3.
